

**Bill "Batman" Pixler**

For me the Hoka Hey was life changing. It made me look deep inside my soul. You may think you know what it takes to participate. But I can tell you that you have no idea. For me to pick one thing about the ride would be an injustice to the experience of a lifetime. I will say that what I took away from this is respect for every rider who showed up in Key West and for the organizers who put this on. The only thing you need to bring on this ride is your soul.
